To the Honourable James Munroe Esqr Secretary of State
for the United States

Sir.

Having just received an Order from James Prince Esqr the Marshal of this District, to quit this place and to proceed to Northhampton I shall pay prompt obedience to the same, Having understood from the Marshal, that this order is in consequence of my having failed to report myself at his Office prior to the Sixth of Febuary last, I beg leave most Respectfully to Submit to your consideration the Circumstances of my Case, in the hope that I may be permitted to return to my occupation here on which the subsistance of my family essentially depends, I arrived at Norfolk from England in the Year 1795, my family at the time consisting of a Wife & three small Children, with intent to take up my residence in this Country, & to prosecute my profession as an Organist and teacher of Music, I have resided at different places in the United States from that time to the present, but for the last ten years in the City of N. York where I lived at the time of the declaration of War; In the Month of July last, I appeared at the Office of the Marshal of that District and reported myself and family. On applying for a Certificate, I was told it was unnecessary, and I mentioned at the time my intention to leave that City. I arrived in Boston in the Month of August last, and have from that time been employed as an Organist in one of the principal Churches here and in my Musical occupations, wholly occupied in my Profession, I was ignorant that it was necessary to make a second appearance before the Marshal of the District, and had no knowledge of it till about the Eighth of this Month, when I immediately applied at the Office to make the proper report. I was unfortunate in not seeing the Marshall at his Office in two instances of my appearance there, and in Consequence of an Order recently received by him from the department of state, it has become his duty to Order me away. I beg leave to declare, that this neglect has not arrisen from any disrespect to the Laws of the Country, which has received me with Honor & Hospitality, but has been wholly owing to my want of information; and I can confidently appeal to those, who have known me since my arrival in this Country, that my Life has been invariably Innocent, inoffencive and respectful to the Laws. I beg leave further to State to you Sir, that I am dependant for my support on my Professional industry, and that in quitting this place, I shall be Obliged to resign my sources of support, and leave my family, now consisting of a Wife and five Children unprovided for. —

I pray that I may be indulged by the favor of the Goverment to return immediately to this place, & pursue my sources of subsistance; and I trust that I have obtained from the Citizens of this town, sufficient testimonials of my peaceable character and conduct.

With the most respectful Consideration
I am Sir, your Obdt. Servt.

To the Honble James Monroe
Secretary of State for the United States.

Sir,

Having learned that Dr. George K Jackson the Organist of our Church has been ordered to leave Boston, and to reside in the town of Northampton, and that it is in consequence of having neglected to report himself at the Marshall's office prior to the 6th February, we, the subscribers the Standing Committee of the Church in Brattle Street in Boston and having care of the same, beg leave respectfully to represent that this order affects our Society with concern, both because it will deprive us of the services of a Gentleman eminent in his science, and as it falls with great hardship on Dr Jackson and his family, who are dependent for subsistence on his professional services. Having understood that he has resided in the United States since the year 1795, and that he did in July last, appear at the office of the Marshall of the District of New York, and make report of himself, and that immediately after he received information of the necessity of such application in this District, he did repeatedly apply at the Marshall's Office to make the proper report, we trust that his supposed neglect in this respect, will not be regarded by the Government

ment of the United States, as evidence of a hostile disposition, and as meriting confinement to a situation, where he will be wholly unable to employ his eminent ~~talents~~ musical talents with profit to himself or with advantage to the community.

We feel it incumbent upon us to testify to the correct peaceable and innoffensive character of Dr Jackson, both in publick and private life, since August last, during his residence in this place as far as we have any knowledge of the same. We regret the necessity which subjects him at an advanced period of life and with an infirm habit of body, to leave the society of his family and to travel at this season to a distant place. We unite in the request, which he has transmitted to the Department of State, that he may be permitted to return to Boston, and we will cheerfully stipulate for his peaceable demeanour should it be required. We trust however that the simple statement of his case will recommend him to your favour, when it is known that he has adopted the United States as his Country, and that he is qualified by his extraordinary talents in his profession, to reflect honor on any Country, in which it may be his lot to reside. We also believe that he has taken no part whatever in the disputes between this country and Great Britain, and we understand that he would be ready and willing to take the oath of allegiance to and become a citizen of the United States, did not

a

a provision in the act of naturalization prevent him and that he would have done this long since, were it not that his children have some little property in England, which he has been apprehensive might be affected thereby.

Sir

The friends of Dr George C Jackson have shown me his letter to you and a Letter wrote by the Parish Committee of Brattle Street Church Boston in consequence of my having directed this person to quit the Sea Side and to retire into the country. — They request I would address a letter to you, stating the reason which I directed [illegible] the time. — Due to the Department — to him and to myself this explanation [illegible].

Your instructions under date July the 7th 1812 and a General Order [illegible] respecting the course to be pursued by Aliens were regularly published — however the compliance was permitted according to the standing in society and measure of [illegible] [illegible] of those [illegible] them.

Dr Jackson had been many months in this district and had never reported himself. his standing in life — his circle of acquaintance, [illegible] made the [illegible] of [illegible] the will of the President [illegible] after receipt of your letter of the 23d of February to be [illegible] in my opinion to grant him a permit to remain here under the conditions contained in the same — namely "that he had moreover hitherto apparently so conducted himself as to be entitled to the indulgence of being permitted to remain where he is in pursuit of his occupation"; under this impression I ordered him to retire [illegible] — This decision of mine undoubtedly involves the Gentleman in difficulty and places the parish in an unpleasant situation. but I trust the

Boston 23d March 1813

My dear Sir

We have a Doctor Jackson who settled in this Town as a Professor of Musick, who has been sent into the Country as an alien Enemy, arising it seems from not having seasonably reported himself to the Marshal of this District.

This Gentleman has resided with his Family in the United States for upwards of sixteen years, & a more innocent individual is not to be found in any Country. His whole Life has been engaged in promoting Concord in all its senses either as moral, musical or a political good. And his Exile to the Banks of the Connecticut has greatly interrupted the Harmony of our Circles both public & private.

Being the Organist of the principal Church in Boston the Congregation have been sadly deranged by this Movement. In a word, my dear Sir, the inoffensive Manners, & social Virtues of this good man, his long Residence in our Country, & his highly useful professional Services, are the grounds upon which I solicit your good Offices to have him restored to his Boston residence, with an Assurance

that any

Guarantee for his correct political Conduct, if any such in an Instance like this could be necessary, could be obtained as promptly & extensively as ~~could be~~ exacted.

I am, with Sentiments of Esteem & Respect

Boston. 23 Mar 1813.

Dear Sir,

I herewith enclose to you several letters applying for the enlargement of an alien enemy who has been recently removed from this place to Northampton, a distance of nearly a hundred miles. The perfectly inoffensive habits, views and manners of this individual, Mr Jackson, were so well known to all persons here, that his restraint has surprised & pained all good men in the community to whom he was known only by reputation, of whatever party or political sentiments. Indeed Sir, you may be assured that this old gentleman is so incapable of hostile designs against our country or its government, and is so much absorbed in his musical engagements ~~tat~~ which he pursues with devoted enthusiasm, that I believe scarcely any political event would for a moment abstract him from these favourite pursuits — The statements that are made of his pecuniary dependence on his tuition in music, are undoubtedly true; and by his restraint

and

absence from home his family would ever inevitably be subjected to the most painful privations. The operation of the law, therefore, in such an individual case produce only injurious effects on the administration; and the application of the law most urgently invokes the interposition of the equitable powers; which it is understood are vested in your person.

Your early and favourable attention to the subject of the very respectable application enclosed will be very gratefully acknowledged by many of our Citizens here; who, notwithstanding the inconsistency & folly of the Political ~~Career of~~ the partisans in opposition, here, with whom they are constrained to cooperate, are yet firm friends to good order and government — and are men on whom the Govt may always rely for support of the laws —

We are becoming daily more active in preparations for Defence here — but on this subject ~~on which~~ I would beg leave to suggest some ~~[illegible]~~ thoughts for your consideration at a future opportunity. Thus much I will venture to say now, that the militia of this place will yet perform their duty, as brave men should. They may be depended on—they will be able and will ~~to~~ defend their harbour against the enemy; whenever he appears—as real patriots should do—

With the highest respect & friendship, I have the honor to be, &c &c,

Yours very sincerely,

Hon James Monroe—

Boston. March 23. 1813.

Sir

Dr Jackson, a native of Great Britain, tho' many years a resident in this Country, has been directed (in consequence of some informality in his manner of reporting himself to the Marshal of this District; to abandon his establishment in this Town, retire to an interior Village, & there await the issue of a petition which he is about to prefer to the President for relief — This Gentleman, with a large family entirely dependent on his exertions; has been several months in Boston, exclusively devoted to the exercise of his profession — he has been employed as an Organist & instructor in one of our most respectable Churches, & engaged, as a teacher of Music, by many private families; all of whom certify to his exemplary conduct and lament the distress which he & his family must necessarily experience from his exile —

It is at the instance of some of his patrons that I take the liberty to address you in his behalf, & to offer the assurance of my belief that no individual can be less offensive to the Government, in his deportment, or more deserving any indulgence which the wisdom of the President may see fit to grant him —

Honble James Monroe Esq

Sir,

I presume upon the honour which I had some years since of an acquaintance with you to bring myself to your recollection in behalf of a very unfortunate, inoffensive and worthy man, whose unmerited misfortune, it is, if I am not mistaken in your power to relieve. I allude to a Doctor Jackson, a professor of music, who being an English subject has been banished from this town, to the interior country, for an unfortunate omission to report himself to the Marshall, tho' a mistake or ignorance of the proper hours of business — He actually repaired to the Office more than once without success. The man is a professor of music in this town, has been in the country many years, has a wife and children dependent on his exertions for support. He is an organist at my Church, teaches music to my daughter, and in many other families, and is withal, a quiet, urbane harmless creature, disqualified by mind, body and disposition to take any active part in any thing beyond a Concerto — He is however excellent in this profession, and very many of us are interested in procuring his return — The most important consideration, however is the distress, to which he and his family must soon be exposed. He is destitute of all resource but his profession; and with his family will literally become paupers and be thrown upon the overseers of the town where he now resides — this indeed Sir, will bear very hard upon persons who have been accustomed to better days, and whose good manners and amiable deportment have recommended them to the best people here —

Application has been long since made to Mr Monroe by the Parish with which he is connected. and as I am informed by others. The Marshall also assures us that he has enforced the application by his own testimony in favour of the man, but probably the pressure and importance of other concerns have prevented an attention to this subject —

I am told Sir, that this concern now falls within your department, and I presume upon your known humanity and sense of justice, to accede to our reasonable request for his permission to return hither — I will engage to find the most ample security for his peaceable and correct deportment — I can imagine no shadow of blame that can be imputed to him, but his having been professionally engaged to perform an ode at the celebration of the Russian Victories, (which he did not however perform), but the poor fellow would perform an ode any where and upon any occasion, so that the music were good —

The Hon. Jas. Monroe
Secy. of State
Washington

Columbia S.C. 11 April 1813 –

Sir

When I had the pleasure of conversing with you at Washington in November last, you were good enough to express your sentiments towards me in a manner, which was so suited to the known benevolence of your character, that I am emboldened by it to address you on an occasion of importance to me, and I trust that the situation in which I am placed will plead my excuse.

In consequence of an order of Government respecting Aliens, I left Charleston on the 24 of last Month, with the Marshal's passport for this place. As I had been about Seven Years in this Country, had a wife and two young Children, all Natives of this State, and not being engaged in any commerce, further than the Collection of old Debts, contracted before the War, I was led to hope that I might have been permitted to remain; but I saw that the Marshal could not make exceptions, and was obliged to submit to the operation of the general Order. — Since my return to the Northward, I have been severely afflicted by a Nervous and Rheumatic affection in the head, which kept me in great agony for many days, and confined me to my room for several weeks. Dr Prioleau, of Charleston, attended me, and will, at any time confirm the Truth of this part of my Statement. This attack has been of great injury to my health. My nerves are greatly relaxed, and the pain in my head is frequently very troublesome. If the order of Government had not been promulgated, it was my intention to have visited the Sweet Springs in Virginia, and thence to have proceeded to Ballston & Saratoga, where from drinking the Waters my experience led me to hope for considerable benefit. When I waited on the Marshal, I informed him of my Intention of going to the Northward, and he gave me to understand that, on application to him, a suitable Passport would be granted. It was under this Impression that I came to this place, that I might ascertain whether I might not find it as well to remain here, and thereby avoid a considerable expence — I am already fully convinced that my constitution requires a more northern Air, and that here I must not hope to renew my health. The distressing Symptoms which hang about me, leave

no room for doubt on this point. I wrote a few days ago to [illegible]
Simpson Esq. Agent for British Prisoners, stating my case to him, and requesting
him to solicit my Passport, allowing me to visit the Mineral Springs of the
Marshal. Yesterday, I received Mr Simpson's reply, in which he informs me
that the Marshal says I must make my application to the Secretary of
State. I am at a loss how to proceed. The Instructions of Government on
this subject, dated 12th March, state that in Cases of peculiar hardship,
where a claim is offered for Indulgence, a representation is to be made
by the Marshal; and I fear that my individual application may
not be entitled to the attention of Government. It is on this account,
and knowing the respectability of your Character, that I venture to
apply to you. I have written to the Honble Willm Lowndes, and doubt not
he will state my case to the Marshal, but I feel satisfied that a
Letter from you to Mr Monroe will have great weight, and your
having the goodness to state my Situation fully to him will lay me
under a lasting obligation.

I do not ask for permission to remain in Charleston — that is a
favor which I cannot expect to receive; and in truth I could not stay
there all Summer without Injury to my health. I do not ask to
be allowed to visit the Sea Coast, altho' greatly to be desired, for my
Physicians recommend Sea Air and Bathing. I have no desire to
encroach on the line drawn by Government. All that I respectfully
wish to state is, that travelling at least 40 miles from Tide water,
I may visit the Springs of Virginia, & afterwards those of Ballston and
Saratoga; and to return to this place or to remain in the Northern
States, within the prescribed limits, until more favorable times
may enable me to revisit Charleston — I have never applied for a
passport to England — my Circumstances do not admit of my going

my wish, at present, is to remain in this County, [illegible] a
Peace; and if I could, in the mean time, regain my health I should,
with good reason, be satisfied. I need not remind you how [illegible]
my health is to my wife and young Children, whose [illegible] dependence
for their Support is on my exertions; and when all things are considered
I am led to hope that the Honble Secretary will not withhold from me
the means of my future exertions for the good of my family. If I cannot
be permitted to go on to Saratoga, I may perhaps be allowed to stay
at Morristown in New Jersey, or near some healthy mountains in the
neighbourhood, taking the benefit of the Virginia Springs on my
way: But I calculate much on the effects of the Saratoga waters; and
when you consider that my request is merely to change my residence
to a more Northern position, on account of my health, and that I
shall always be at a greater distance from the [illegible], I do not suppose
that Government will consider it of any importance whether I am
in this or a more Northern State.

I am afraid I have tired your patience, but we are all apt to
[illegible] think of [illegible] to [illegible] and
indulge in every [illegible] which we think of [illegible] [illegible] for [illegible]. As

the declaration of War I have made it a point of Conscience
to abstain, in all my letters to my friends at home, from all

which arrived safe, and have been sold there. As to other pursuits
I have never written a line for publication since the Religious

Columbia S. C. May 8. 1813

Sir

I beg leave to state to you, to whom this Government has committed the superintendence of Aliens, the particulars of my Case, and to solicit respectfully, if your official duties permit it, your kind and early attention thereto.

I am a native Subject of Great Britain. I arrived in Charleston S.C. in September 1805, where I have, ever since, been a resident. My family consists of my Wife a native of that City, and two Children born there. For several months before, and ever since the Declaration of War, I have relinquished busineſs. I have the honor of being personally known to the Honble Mr Cheves & Mr Lowndes, Members of Congreſs for this State; and Judge Gaillard, of this Town, has recently written to his Brother, a Senator of the United States, in my favor. Any of these respectable Gentlemen will, I doubt not, satisfy you that I am worthy of credit, when I aſsure you, that I have invariably conducted myself peaceably, and as became an Alien residing in a foreign Country.

It was my intention to have retired to some interior town in the Northern States, until the return of Peace; but a severe affection of the Nerves, which has afflicted me for several Years, makes me anxious to try the effect of a Sea Voyage, and some family matters render my presence in Europe of importance to my family. I applied, recently, to the Honble Secretary of State for paſsports; but there being no Cartels established at present, I am led to believe that no paſsports will be granted for sometime. But I am informed that Government does not prevent Aliens, who were in the United States before the War, from sailing to Neutral Ports. I therefore respectfully request you to inform me whether there is any impediment to my embarking with my family, and a female Servant, on board of a Veſsel for Lisbon, or some other Neutral Port—

The Season is approaching when it will be unsafe to go to Charleston, through the low Country; the Situation of my wife requires that she should embark soon, or she might be put to great Inconvenience at Sea; and I therefore hope you will permit me to add that an early reply to my request will lay me under a particular obligation, and command my thanks.

I had scarcely recovered from a severe Illness when the order of Government appeared, in March, to remove Aliens from the Sea Coast. Unwilling to be the cause of an Exception, and in the hope of benefiting my health, I came hither at a short notice; and, if it could be allowed me, about a week's residence in Town, previous to my sailing, would enable me to settle some matters, which, if neglected, will put me to great Inconvenience.

I hope you will pardon the trouble which this may occasion to you. I should not have trespassed on you, but the Marshal thinks himself incompetent to grant permission, and has referred me to the Government.

I have the honor to be,
Very respectfully,
Sir

CHARLESTON S.C.

Charleston March 29. 1813 -

Dear Sir,

I hope you will not deem me troublesome in the application I am about to make for your friendly interference in my behalf —— In consequence of the several steps which have been lately taken with regard to Aliens - I am fearful some further orders may be issued requiring them to leave the United States, or at any rate the particular situations in which they reside - either of which would be a serious inconvenience to me. — altho' considered by the Law as an Alien (the term of my denizen-ship not having quite expired) my situation is so very peculiar - that I think were it explained to the Secretary of State he might with the greatest propriety absolve me from a compliance with any orders respecting Aliens

It is almost needless to inform you that all my relations are inhabitants of the United States - those on my Mother's side are natives of this State - and the only surviving relatives of my father have been for many years settled in N. Carolina & Virginia. —— If it were not deemed as trespassing too much on your time I should feel myself greatly obliged would you take the trouble to make known the above circumstances to the Secretary of State ——

I hope your family have enjoyed good Health since their residence at the Northward —

Mrs Wilson unites with me in best respects to yourself & Mrs Cheves

Genl. Prevost.

Sir

I understand that Mr. John Wilson who has been for many years a resident of South Carolina is apprehensive of being removed from the neighbourhood of the sea coast as an alien. I have known his character for several years & I believe that his removal (while it will be highly inconvenient to the lower part of the State the surveying business of which is chiefly done by him) cannot be supposed to be necessary from any motives of political prudence. His character & that of his family & the circumstance of his property & his expectations being all in Carolina are I venture to suggest in this instance ample securities for his fidelity to the Country.

I am Sir

very respectfully

yr obed. Servt.

W. Lowndes.

Sir, Washington 15 June 1813

I take the liberty in this form to renew the application which I made to you in person this morning, in behalf of John Wilson, of Charleston, So. Carolina, for a relaxation of the regulations concerning alien enemies, in his case — I know that Mr. Wilson has resided in Charleston for a period nearly long enough to entitle him to admission as a citizen — that he is a Gentleman of excellent character & of considerable Science — That he has been the Official land Surveyor of the Corporation of the City of Charleston, tho' I do not know that he is so at this time — That his Mother is a native of So. Carolina & now resides in Charleston with a numerous family of connection who are also natives of the same place & who are highly respectable — That he is married to a native by whom he has had a child or children — That his wifes Father & Connections are all natives

and

and of highly respectable Character - I also know that his father is dead & believe that he has no near relatives not resident in the U. States - It was stated to me in a letter, which I take the liberty to enclose, that all his fathers relatives reside in No. Carolina & Virginia & from my knowledge of his Character I give the greatest Confidence to his declaration - I believe also that he ~~has~~ made his declaration long before War was declared or expected to be declared of his intention to become a Citizen I have no hesitation in saying that I think him well attached to the Government & Country & that there will not be the least danger whatever in permitting him to remain in Charleston - I have omitted to mention that he is ~~by profession~~ a Land Surveyor appointed under the authority of the State, in the habit of making Surveys under rules of Court in Suits Concerning

lands

Lands & that to remove him from Charleston would be greatly injurious to his interests, distressing to ~~his family~~ a numerous & respectable family connexion & a public inconvenience [illegible]

— I will add that the facts which I have stated are perfectly well known to the Marshal for the District & I intreat that, if the Government shall ~~consent to~~ make any exceptions to the General regulations, ~~case~~ Mr. Wilson's case may be among them, convinced, as I am, that no stronger or safer case can present itself —
